Almost all of you have roommates, and it is common knowledge that when human beings live in such close proximity there is a pretty good possibility problems will crop up.

Anyway, for all the rest of you who are not as lucky as I, have created a sort of roommate quiz. Read each question and determine which response best corresponds to your roommate. At the end, use the scoring guide to total up the net worth of all the responses you picked to determine how good your roommate is. Also, I will be using “he” to refer to your roommate because I just don’t want to type the politically correct phrase a million times, so don’t send me mail saying you think I am sexist. Good luck, and may you not spit into the wind.
