These are all the questions that I have. Thank you very much for your time and your help with our research. My professor also would like to have your permission to look at your transcript, so that we can relate your grades this semester to the interview data. As this permission form describes, he alone will process the data, and the data file for the survey will not contain your name or any other identifying information.

Finally, my professor may wish to get in touch with you to verify this interview. Therefore, we would like to have your telephone number. Ok?
